SUMMARY

Computer Engineer with hands-on experience in React.js development and MERN stack implementation through professional internships.

WORK EXPERIENCE

TeamOB Solutions Pvt. Ltd. | React.js Intern

January 2025-Current

- Building and deploying scalable React.js projects within the MERN stack, focusing on functionality and user experience.
- Collaborating with the team to implement and enhance features effectively.

Swashamtaa Foundation | Intern

July 2024 - September 2024

- Created an online mental health platform using the MERN stack, featuring 50+ expert-curated articles on mental well-being, personalized self-care tools, and AI-driven recommendations.
- This platform boosted user engagement by 30% and enhanced accessibility to mental health resources.

EDUCATION

B.Tech in Computer Engineering

2021- 2025 (Nagpur, India)

St. Vincent Pallotti College of Engineering and Technology

CGPA: 8.35

Class 12

2021 (Nagpur, India)

Major Hemant Jakate College of Science and Commerce

Percentage: 99.33

Class 10

2019 (Nagpur, India)

Perna Convent School

Percentage: 93.40

PROJECTS

JIRA-KANBAN BOARD | [Link](#) | React.js | Node.js | Express.js | MYSQL

January 2025

- Implemented a Kanban board, an agile project management tool that allows teams to manage their workflow by dragging and dropping tasks, enhancing workflow visibility for 10+ teams.

FIT-TRACK | [Link](#) | OpenCV | MediaPipe | Next.js | Node.js | TypeScript | PostgresDB | Tailwind CSS

Sept-Nov 2024

- Developed and implemented a computer vision-based workout tracking system using MediaPipe and OpenCV, providing real-time pose detection, form evaluation, and personalized feedback for fitness enthusiasts.
- The system accurately tracked 33 key body points, achieving a 90% precision rate in pose estimation.

INNERBALANCE | [Link](#) | React.js | Node.js | Express.js | MongoDB | Gemini API

May-June 2024

- Crafted an innovative online mental health platform offering personalized support through evidence-based assessments, exercise routines, meditation guidance, and an AI-driven chatbot for tailored recommendations and real-time assistance.
- Incorporated 50+ expert-curated articles and resources, boosting user engagement.

PORTFOLIO WEBSITE | [Link](#) | Next.js | Tailwind

August 2024

- Built and deployed a personal portfolio website featuring a clean and responsive design to effectively highlight my skills, showcase projects, and provide contact information

SKILLS

Languages: C/C++, JavaScript, SQL, Basics of Python

WebTechnologies: React.js, Node.js, Express.js, HTML, CSS, Tailwind.

Databases: MYSQL, MongoDB

Others: Github, Bitbucket, Appscript

CERTIFICATIONS

C Language | IIT Bombay Spoken Tutorial

WebDevelopment Bootcamp | Udemy

POSITION & RESPONSIBILITIES

TECHNEX HACKATHON | Event Organizer

February 2023

Led a successful 24-hour hackathon for college students across India, drawing over 300 participants while managing a team to manage logistics and participant engagement.

GOOGLE DEVELOPERS STUDENTS CLUB | Member

Jan 2023-March-2024

Coordinated events and guided sessions on technological solutions, contributing to a 20% increase in student participation in GDSC projects.
